The Ultimate Cutting & Drilling Combo Pack

What's Included

XDP 905 **Foam**

The XDP 905 Foam is a high-performance lubricant for cutting, drilling, and tapping metals, including stainless steel. Particularly useful for tapping and vertical surfaces, its advanced formula offers exceptional film strength, corrosion resistance, and increased tool life.

XDP 905 **Spray**

The XDP905 Spray Cutting Oil is a high-performance lubricant ideal for deep boring and horizontal surfaces. Featuring an accurate nozzle for easy application, this low-viscosity oil protects against corrosion, reduces wear and friction, and increases tool life up to five times.

XDP 405 **Spray**

XDP405 is a non-hazardous rust preventative with strong penetration capabilities, offering lasting surface protection against oxidation. It's ideal for safeguarding tooling from corrosion during periods of inactivity and detaching rust-bound pieces.
